

Student Aid Index

An eligibility index number that determines how much financial aid you would receive if you attend the school.

Cost of Attendance

Your COA is not a bill; it is the estimated amount it will cost you to cover living and educational expenses for the designated terms. If you are a Main Campus graduate student who will need funding in excess of this number, please complete a Graduate Cost of Attendance form, available on the Home tab of your Financial Aid Dashboard.

Options to Pay Net Cost

Work

Federal Work-Study (FWS) is a program funded by the Department of Education through which you earn money on a bi-weekly basis to help you pay for educational expenses. Main campus students can find FWS and other campus employment opportunities on Handshake (<https://iit.joinhandshake.com/login>). Downtown campus students can visit the Career Services department for employment opportunities.

Loans

Borrowed money which you are responsible for repaying with interest (<https://studentaid.gov/understand-aid/types/loans/interest-rates#rates>) ">. The U.S. Department of Education pays the interest on Federal Direct Subsidized Loans while you are enrolled at least half-time. Because interest that accrues on Federal Unsubsidized and Federal PLUS Loans is added to your outstanding principal after you graduate or drop below half-time status, we encourage students to consider paying the interest on these loans while enrolled. To do so, contact your loan servicer.
